## Attachment A to SPC 3921111601B

## **REQUIREMENTS:**

- 1. Perform a forensic collection of the digital data from the election computers and hardware used by Fulton County, Pennsylvania in the November 2020 election.
  - a. The method of collection will produce an exact copy of the original data and capture the current state of the data at the time of collection (forensic image). This method establishes a date integrity and digital preservation point of the collected media, ultimately allowing an opportunity to conduct analysis of the data, without caveat.
  - b. Execution of this task order is based upon coordination with, and permission of, the Fulton County Election Board.
  - c. Envoy Sage will collect, then store a Gold Copy (exact duplicate of the original data / also referred to a copy in Escrow).
  - d. Envoy Sage will follow proper chain of custody for collection and storage.
  - e. Envoy Sage will provide protocols for collection of a forensic image.
- 2. The Envoy Sage technical team shall be prepared to receive additional media or items as directed. If so directed, Envoy Sage shall:
  - a. Conduct a collection of the digital data from the media or items following the procedure described in Paragraph "1" above.
  - b. If directed, the Envoy Sage technical team shall:
    - i. Collect, record, and seal the media or items in a Collection Control Bag or
    - ii. Follow appropriate chain of custody processes.
- 3. Provide a summary of your investigative actions in Fulton County and confirm successful Gold Copy/Copy in Escrow of the documentary data and information consistent with chain of custody standards.
